Experience

Web Developer — 2022 - 2023
Freelancer - Brazil

I currently work as a freelancer on customized projects using Angular, Typescript, and .Net. My knowledge in modern technologies allows me to offer efficient and high-quality solutions to my clients, always striving to meet their specific needs. I work independently and diligently, always seeking the best outcome for the project at hand.

Full Developer Analyst — 2022
Cognizant - Brazil

I specialize in the implementation of Javascript scripts for Google Ads, guiding advertisers in the implementation of conversion tracking on their websites. I use HTML, CSS, JavaScript, and platforms like Wordpress, Magento, Drupal, Joomla, Shopify. I am an expert in Google Ads, Google Shopping and Google Analytics solutions, offering consultancy and implementation services for web product tracking and analytics tags. I identify and solve problems in existing implementations.
